

AminoSculpt® is a medically-used, enzymatically hydrolyzed liquid collagen peptide supplement. Supplementing with collagen peptides is essential in any anti-aging, weight loss or wellness program.

As we age, our body's ability to produce and maintain collagen diminishes. As collagen is the most important structural protein in the human body, we see and feel the effects of this loss as wrinkles form, skin sags, hair dulls, nails become brittle, joints stiffen and our bodies lose muscle tone. Daily supplementation with enzymatically hydrolyzed† collagen peptides can help promote a more youthful feeling body and appearance.

Hydrolyzed collagen peptides have been used to support:

- Weight loss programs*
- Tissue and skin repair*
- Lean muscle*
- Joint function and cartilage*
- Energy*
- Skin, hair and nail appearance*

AUTHENTICITY GUARANTEE

AminoSculpt contains the original **CollaPure™** Type 1 collagen peptide formula used by over 4,700 health professionals, including doctors, surgeons, and nutritionists. It has been recommended for over 15 years in the anti-aging weight loss book, *How to Completely Reshape Your Body!*

DIRECTIONS: Take two Tablespoons (1 Fl Oz/30 mL) daily at bedtime. For best taste mix with 2 Fl Oz of water. For optimal weight loss and sleep benefits, take AminoSculpt on an empty stomach. To increase results or for added protein, an extra serving can be taken daily at any time. For best results, drink six to eight glasses of water daily. Maximum benefits are experienced when AminoSculpt is taken for at least 90 days (although most users notice certain benefits within a few weeks).

† **NOTICE:** *AminoSculpt* contains natural ingredients and enzymes, therefore the color, taste, and thickness may vary between batches.

CAUTION: As with any supplement, infants, children and pregnant or nursing mothers should consult with their physician before using. Not to be used as a sole source of nutrition.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
