

USAGE: Take 1 scoop per day or as directed by your qualified healthcare professional. Store in a cool, dry place.

NOTE: If you have a medical condition, are pregnant, lactating, trying to conceive, under the age of 18, or taking medications, consult your healthcare professional before using this product.

TMG Crystals™ provides trimethylglycine (a.k.a., anhydrous betaine), an important methyl donor. Methyl donors, such as TMG and folic acid, are required for converting homocysteine, an oxidizing metabolite, back into the amino acid methionine and for the accurate synthesis of DNA and RNA, which is essential for the production of normal cells.*

Keep out of the reach of children.
