

Recommended Use:

As a dietary supplement take one to four (1-4) capsules three times daily 30 minutes before meals with a full glass of water, or as directed by a physician. Do not take with milk or hot fluids.

Amino acids are the building blocks of protein, and make up 3/4 of the body's solid material. They are found in muscle tissue, organs, blood and skin. Amino acids also make hormones, enzymes, and vitamins, and are essential for a healthy immune system and proper neurological functions. It is necessary to replace amino acids consistently to nourish the body, repair and regenerate tissue.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Do not refrigerate. Keep this and all nutritional supplements out of the reach of children. Store in a cool dry place with the cap tightly sealed. Strict quality control is maintained during each step of formulation.
