

Recommended Use:

As a dietary supplement, 1 to 2 chewables daily after meals or as directed by a physician.

These delicious culture chewables are an excellent nutritional supplement for children and adults.

B. bifidum and *L. acidophilus* are micro-organisms found in normal intestinal flora which help maintain a desirable balance between the various intestinal micro-organisms.

These strains are specially cultured, selectively isolated and have been extensively researched to produce a most effective product. They are grown in a natural medium and are naturally stabilized both before and after freeze-drying.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Not to be used by pregnant or nursing mothers, unless directed by a physician.

Keep this and all nutritional supplements out of the reach of children. Store in a cool dry place with the cap tightly sealed. **Refrigeration recommended after opening.** Strict quality control is maintained during each step of formulation.

WE USE USP/NF MATERIALS WHERE AVAILABLE.
