

XCraving Formula®

XCraving Formula® contains our Buffered Vitamin C with additional nutrients that support insulin regulation, blood sugar normalization, and the proper metabolism of calcium, helping to sustain an appropriate metabolic rate. Together, these nutrients support a reduction of food craving and the body's ability to burn fat rather than store it.*

Suggested Use

As a dietary supplement, 1 heaping teaspoon or more in 8-12 ounces of liquid, between meals, or as directed by a healthcare practitioner. Two teaspoons supply approximately the recommended dietary allowances for calcium and magnesium.

Keep in a cool, dry place, tightly capped.

Developed by Stephen A. Levine, Ph.D.
