

Tocotrienols with Vitamin E

from Rice Bran Oil

Tocotrienols are naturally occurring relatives of tocopherols, the many components of the complex commonly known as Vitamin E. Tocotrienols have important roles in the regulation of blood lipid levels, cell mitosis and as water and fat soluble antioxidants. Rice bran oil extracts are especially rich in gamma-tocotrienol.

Suggested Use 81080 EXF 12-11

As a dietary supplement, 1 softgel one to four times daily with meals, or as directed by a healthcare practitioner.

Keep in a cool, dry place, tightly capped.
