

MONEY-BACK GUARANTEE

Strontium is one of the many minerals essential for bone health. Studies indicate that strontium positively affects bone strength and maintains healthy bone density.*

Recommendations: 2 capsules daily. Studies suggest that, for better bioavailability, strontium should be taken more than two hours before or two hours after taking a calcium supplement. Strontium is absorbed using calcium transport mechanisms, and should not be taken at the same time as calcium supplements.

If pregnant or nursing, consult a healthcare practitioner before using.

Strontium supplementation may be contraindicated for individuals with impaired renal function.

Strontium

Healthy Bone Strength and Bone Density*

For Your Good Health

60 Capsules

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size: 2 Capsules

Servings Per Container: 30

Amount Per 2 Capsules (Veg):	%DV
