

CARBON

BY LAYNE HORTON

"I'm a scientist, champion bodybuilder, raw elite powerlifter, and physique architect for a long list of pro clients. I thrive on research and results. Because I saw a need for well-formulated supplements that completely cut the BS, I developed my own line that smart lifters could trust: CARBON.

CARBON supplements aren't gimmicks. They're not about hype. They're built on a combination of time-tested research, cutting-edge formulas, and evidence-based doses to help you regain, build, and maintain your muscle growth.
