PROFESSIONAL USE ONLY

Not for resale on third-party websites. including, but not limited to, Amazon® and eBay®.

DIRECTIONS: Blend, shake, or briskly stir two level scoops (46 g) into 8-10 oz chilled water and consume one to two times daily; or take one to two scoops approximately 20-30 minutes before each main meal; or use as directed by your healthcare practitioner.

Consult your healthcare practitioner prior to use. Not intended for use by pregnant or lactating women or children under 12. Individuals taking medication should discuss potential interactions with their healthcare practitioner. Do not use if tamper seal is damaged. The labeling on this product does not comply with California's Proposition 65. Therefore, this product may not be sold in California.

OptiMetaboliX[™] is an exclusive combination of well-researched, clinically validated, and highly bioavailable ingredients that provides multimodal support for healthy insulin and glucose metabolism and related pathways. It features InSea²⁰—an optimized blend of purified polyphenols from wild-crafted brown seaweed. InSea² uniquely slows carbohydrate digestion and assimilation and can reduce the impact of high-olycemic foods. This newly developed, next generation dual carb controller is 100% natural, has an excellent safety profile, and is friendly to the gastrointestinal tract.*

OptiMetaboliX also delivers other innovative ingredients, including VegaPro[™]—a proprietary sugar-free, sweetener-free, low-allergy-potential source of vegetable protein from pea protein and rice protein—and CinSulin®, a patented water extract of cinnamon with a potent 10:1 yield ratio. Cinnamon has been studied extensively for its roles in supporting healthy glucose uptake, glycogen synthesis, and insulin action, along with maintaining blood lipids already within the normal range. These principal ingredients are complemented by the inclusion of benfotiamine to boost transketolase activity; alpha-lipoic acid; green tea leaf extract; vanadium, chromium, and zinc as Albion® TRAACS® chelates; 5-MTHF (bioactive folate) as Quatrefolic®: fiber from inulin; and other key vitamins and minerals.*

To avoid the use of added sugar and the aftertaste of stevia, OptiMetaboliX is sweetened with monk fruit.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORAGE: Keep closed in a cool, dry place out of reach of children.
