

Doctor's Best High Absorption Magnesium uses a patented, organic, chelated delivery form of magnesium to optimize bioavailability and GI tolerance.* It is not buffered and more absorbable than magnesium oxide.*

Magnesium is an essential dietary mineral that plays many important roles which include: helping cells produce metabolic energy, supporting optimum nerve function, helping muscles relax properly and maintaining a healthy heartbeat.* Lysine and glycine have been shown to be efficient carriers for minerals that facilitate absorption in the intestinal tract.*

Helps support bone, heart, nerve and muscle health*

Helps support normal magnesium levels that decrease with age*

Made with a patented, organic form of bio-available magnesium that is 100% chelated*

Contains magnesium chelated with amino acids, L-Lysine and L-Glycine, providing high absorption*
