ITEM: 4042-921 F: 3081124 B: 2808910-17153

## Superior Triple-Shell Protection

Natrol® Probiotic Acidophilus BioBeads® are uniquely protected by an advanced triple shell that ensures probiotic viability.

### First Layer:

Targeted-release technology helps guarantee BioBeads potency on the shelf, and protects viable microflora all the way to ingestion.

### Second Layer:

Bead passes safely through the acidic stomach environment unharmed.

### Third Layer:

Inner layer gently breaks down in the small intestine, releasing proprietary blend of probiotics that helps support digestive health and immunity.

Directions: Take 1 bead daily, with or without food.

### Supplement Facts

Serving Size: 1 Bead  
Servings Per Container: 30

| Amount Per Serving                               | %DV       |
|--------------------------------------------------|-----------|
| Proprietary Probiotic Blend                      | 12.9 mg * |
| (2 Billion live cultures at time of manufacture) |           |
| Bifidobacterium longum                           |           |
