

Doctor's Best Vein Support contains DiosVein® Diosmin, used for decades for vascular support in Europe. Derived from sweet orange and rich in bioflavonoids, DiosVein® has been shown in clinical studies to support blood vessel health and support normal circulatory function.* Further studies have found that Diosmin in combination with the flavonoid hesperidin supports healthy venous function.*

Vein Support also contains MenaQ7®, a long-acting, natural form of Vitamin K2 purified from fermented chickpeas. Adequate K2 is important for healthy blood vessel function and MenaQ7® is a long-acting form shown to support cardiovascular health.*

Helps support blood vessel health*
