

Quercetin Bioflavonoids

Provides quercetin from a non-citrus source and other bioflavonoids from lemon. Bioflavonoids have been shown to support the integrity of mast cells, which play a key role in controlling the release of histamine, and they potentially support the health of the vascular system.* Quercetin may also reduce the production of prostaglandins and leukotrienes.*

Suggested Use

As a dietary supplement, 1 or 2 capsules one to three times daily with meals, or as directed by a healthcare practitioner.

Variations in product color may occur. Keep in a cool, dry place, tightly capped.
