

FLORA

SHELF-STABLE

The Flora Advantage - Flora's line of shelf-stable probiotics was professionally formulated to provide you with maximum benefit and efficacy. Each strain used goes through an extensive probiotic characterization process, ensuring that it is resistant to gastric acid and bile, able to compete with other bacteria, is absent of antibiotic-resistant genes, and is able to effectively co-culture with human cells. Each probiotic strain used makes a distinct contribution to support gastrointestinal health.*

Flora's Complete Care Probiotic is a full-spectrum blend of 6 strains professionally formulated to provide balance to the entire intestinal tract. A variety of both Lactobacilli and Bifidobacteria ensure a blend that more closely approximates the normal composition of intestinal flora. Complete Care Probiotic will provide daily support for the maintenance of healthy flora and support gastrointestinal health.*

Supplement Facts

Serving Size 1 Capsule

Amount Per Serving % Daily Value

Complete Care Probiotic Blend (165 mg)	
10 billion colony forming units	†
<i>Lactobacillus casei</i> HA-108	34%†
<i>Lactobacillus rhamnosus</i> HA-111	26%†
<i>Lactobacillus acidophilus</i> HA-122	15%†
<i>Bifidobacterium breve</i> HA-129	15%†
<i>Bifidobacterium bifidum</i> HA-132	6%†
<i>Bifidobacterium longum</i> HA-135	4%†

† Daily Value not established.

OTHER INGREDIENTS: Potato starch, hydroxypropyl methylcellulose, ascorbic acid, stearic acid, silicon dioxide.

SUGGESTED USE: Take 1 capsule 1 to 3 times per day, with or just prior to meals (up to 30 minutes). Take this product at least 2-3 hours before or after taking any antibiotic(s).

CAUTION: As with any dietary supplement, consult a physician if taking prescription medications or if you have a medical condition. Contains traces of milk and soy.

TAMPER EVIDENT: Do not use if foil blister pack is broken. Store at room temperature (do not exceed 71 °F). For ultimate stability, keep refrigerated. Keep out of reach of children.

**Minimum of 34 billion total viable cells per capsule at time of manufacture. (Minimum 10 billion viable cells per capsule at printed two-year expiration date.)
