

FLORA

SHELF-STABLE

The Flora Advantage - Flora's line of shelf-stable probiotics was professionally formulated to provide you with maximum benefit and efficacy. Each strain used goes through an extensive probiotic characterization process, ensuring that it is resistant to gastric acid and bile, able to compete with other bacteria, is absent of antibiotic-resistant genes, and is able to effectively co-culture with human cells. Each probiotic strain used makes a distinct contribution to support gastrointestinal health.*

Pregnancy is an exciting time that demands a lot from your body. This is why Flora created Pregnancy Care Probiotic... a probiotic designed specifically to support favorable gut and vaginal flora in women during pregnancy and the postpartum period*. Clinically proven, Pregnancy Care Probiotic can help promote healthy gut & vaginal flora in women who've experienced a caesarean section under antibiotic therapy, and supports the management of potential antibiotic-associated diarrhea during this period*. It is important to take care of yourself and your baby, and taking Pregnancy Care Probiotic during your pregnancy and while nursing helps ensure you maintain favorable gut and vaginal microbiota.*

Supplement Facts

Serving Size 1 Capsule

Amount Per Serving % Daily Value

Pregnancy Probiotic Blend.....65.5 mg†

Lactobacillus rhamnosus R0011.....95%†

Lactobacillus helveticus R0052.....5%†

† Daily Value not established.

OTHER INGREDIENTS: Potato starch, hydroxypropyl methylcellulose, magnesium stearate, ascorbic acid, sucrose, yeast extract, and maltodextrin.

SUGGESTED USE: Adults: Take 1 capsule 2 times daily. For cesarean

section delivery women: Preferably start at least a week prior to delivery and continue for 10 days after delivery. Take at least 2-3 hours before or after antibiotic(s). Store at room temperature (do not exceed 71 °F). For ultimate stability, keep refrigerated. Keep out of reach of children.

CAUTION: As with any dietary supplement, consult a physician if taking prescription medications or if you have a medical condition. Consult a health care practitioner prior to use if you have fever, vomiting, bloody diarrhea, or severe abdominal pain. Discontinue use and consult a health care practitioner if symptoms of digestive upset (e.g. diarrhea) occur, worsen, or persist beyond 3 days. Do not use if you have an immune-compromised condition (e.g. AIDS, lymphoma, patients undergoing long-term corticosteroid treatment). Contains soy.

TAMPER EVIDENT: Do not use if foil blister pack is broken.

**Minimum of 10 billion total viable cells per capsule at time of manufacture. (Minimum 2 billion viable cells per capsule at printed two-year expiration date.)
