Antioxidant Protection†

Açai berries are an antioxidant that neutralize free radical damage and protect cells from oxidative damage related to aging and environmental stress.†

The dark purple pigments in Açai berries contain anthocyanidins for high ORAC (oxygen-radical absorbance capacity) value and antioxidant potential.

Although blueberries are known for high ORAC value, Açai berries have twice the ORAC value of blueberries.

What are Açai Berries?

Açai (pronounced Ah-Sigh-ee) berries, harvested from palm trees in the Amazon Rain Forest, have been used for centuries by indigenous tribes.†

Why Natrol® Açai Berry?

Natrol® uses berries that are gently extracted with water (no chemical solvents are used) to ensure all nutrients are retained.

Natrol® only uses berries safely harvested from the Rain Forest to protect the environment.
