## MONEY-BACK GUARANTEE

### You Need Iodine. Iodine Co-Factors™ Helps Make It Work.

Every cell in your body needs iodine, but some people need additional nutrients for it to work at its best. **Iodine Co-Factors** provides ingredients recognized as important partners to this crucial mineral:

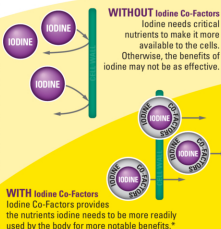

- **Selenium** acts synergistically with iodine and plays a role in iodine's availability to cells. Additionally, selenium protects the thyroid gland from oxidative stress, which may occur during the conversion of iodine to iodine.\*
- **Vitamin C** supports healthy tyrosinase activity, a required enzyme for energy metabolism and thyroid hormone production.\*
- **Thiamin (B1)** helps activate the thyroid hormone and thyroglobulin protein production.\*
- **Riboflavin** assists iodine in the synthesis of the thyroid hormone, thyroxine (T4).\*\*\*
- **Magnesium** improves the absorption and utilization of iodine.\*
- **Manganese** is essential for the conversion of glucose to cellular energy and aids in iodine's support of balanced metabolism.\*

If you don't feel you are getting all the benefits from iodine that you desire, **Iodine Co-Factors** may be the missing link!

### Make Iodine More Effective!

**Iodine Co-Factors™** is designed to be taken with the *Terry Naturally™* iodine-containing products Thyroid Care™ or Tri-Iodine®. Iodine Co-Factors increases iodine's effectiveness for:

- **Healthy Metabolism and Weight Management†**
- **Daily Energy Levels**
- **Breast, Prostate, & Colon Health**
- **Thyroid Hormone Levels††**
- **Healthy Detoxification\***
