

Natural Herbal Remedy

Altigen™ was carefully formulated to aid in dry, hypoxic conditions, to improve athletic performance and reduce fatigue. The six Chinese and Tibetan herbs, unite to invigorate and nourish the blood, and form an ideal remedy for altitude sickness relief and high altitude adaptation.

Altigen™ works quickly to strengthen the body's ability to handle high altitude activity. The adaptogenic herbs, American ginseng and rhodiola, are known in Chinese medicine to help the body effectively recover from stress (induced by exercise or activities at altitude) by binding oxygen to iron more efficiently, keeping the blood oxygenated.
