Relizen is clinically shown to reduce the severity and frequency of menopausal hot flashes and night sweats and provides you the relief you've been waiting for – without hormones, harsh chemicals or soy.\*

Through our proprietary purification process, we unlock the unique healing benefits of pollen from four specific plants grown in Sweden. Discover hormone-free relief from hot flashes and night sweats — keeping you cool and dry.

Relizen takes time to work. You should begin to feel relief around month two or three and survey data shows that relief improves with prolonged use.

**Suggested Use:** Take two tablets once per day or as directed. Continue for prolonged benefit.
