

Recommended Use: As an adult dietary supplement take 1/4 teaspoon with meals one to three times daily or as directed by a healthcare practitioner.

The probiotics in this product are found in normal healthy intestinal flora. They help to maintain a desirable balance between the various intestinal microorganisms. These strains are specially cultured, selectively isolated and have been extensively researched to produce a well absorbed product. These healthy micro-organisms are grown in a natural medium and are naturally stabilized both before and after freeze-drying.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Not to be used by pregnant or nursing mothers unless directed by a physician. Keep this and all dietary supplements out of the reach of children. Store in cool dry place with cap tightly sealed. Strict quality control is maintained during each step of formulation. **Refrigeration recommended after opening.**
