

KETO SCIENCE MCT OIL BOOSTS METABOLISM*

The healthy saturated fat found in coconut is composed of MCTs (Medium Chain Triglycerides). Keto Science™ MCT Oil is made from pure coconut oil and is easy to take, beneficial to your health and — best of all — may help you burn fat and lose weight.*

Keto Science MCT Oil is uniquely metabolized and easily digested. MCTs are not stored in your body like other fats. These medium chain fatty acids are quickly broken down to dispense fast energy. When your metabolism speeds up, your cells function with better efficiency, which may improve energy expenditure and help with weight control.*

MCT oil also has a satiation (hunger reducing) effect, helping reduce caloric intake and increasing your metabolism. Enjoy the benefits of Keto Science MCT Oil — combined with a healthy diet and exercise program — and be one step closer to looking and feeling your best!*
