

ANABOL-5™ Product Highlights

- Supports Muscle Protein Synthesis†
- Helps to Build Lean, Dense Muscles with Exceptional Hardness and Quality†
- Has Adaptogenic Properties Which Support the Anabolic Effects of Intense Training†
- Fast-Absorbing Liquid Capsules for Rapid Effects†
- Full 30 Day Supply

ANABOL-5™ is a powerful non-steroidal anabolic agent. It is for those who are seeking to build lean, dense high quality muscles with extra hardness. By helping to create an anabolic environment ANABOL-5 assists in increasing the amount of protein a muscle can synthesize. When used in combination with intense weight training the adaptogenic properties of ANABOL-5 help stimulate anabolism and combat muscular fatigue. ANABOL-5 supports the body's own protein building cycle on a non-hormonal non-steroidal level. To help ensure a rapid onset of its effects ANABOL-5 utilizes fast-absorbing liquid capsules.†
