

Immuno-Gland Plex

Natural Glandulars

This natural material is processed by lyophilization of glands derived from government-inspected, range-fed animals, raised in New Zealand without hormones or antibiotics. The material is frozen, then subjected to a high vacuum that vaporizes moisture directly from the solid state, thereby maintaining biological activity.

Suggested Use

80098 EXF 9-12

As a dietary supplement, 1 capsule two or three times daily with meals, or as directed by a healthcare practitioner.

Keep in a cool, dry place, tightly capped.
