

Pancreas Natural Glandular (Pork)

This natural material is processed by lyophilization of glands derived from government-inspected, range-fed animals, raised in New Zealand without hormones or antibiotics. The material is frozen, then subjected to a high vacuum that vaporizes moisture directly from the solid state, thereby maintaining biological activity of the material.

Suggested Use

As a dietary supplement, 1 capsule three times daily, taken 1/2 to 1 hour before each meal, or as directed by a healthcare practitioner.

Pancreas Natural Glandular PORK may be used in rotation with Pancreas Natural Glandular BEEF and LAMB.

Variations in product color may occur. Keep in a cool, dry place, tightly capped.
