PROBIOTICS
EXTRA

DIETARY
SUPPLEMENT

Net Wt. 1.83 oz. (51.9 g)

Directions for use: Up to age 2, mix one level scoopful with water, juice, lukewarm infant formula or food. For newborns, mix only ¼ scoop per day into formula (for the first week).

WARNING: DO NOT feed powder directly to infants or children. Do not exceed recommended serving size per day. Store at 15-30°C (59-86°F). Protect from heat, light and moisture.

KEEP OUT OF THE REACH OF CHILDREN. Do not use if safety seal is broken or missing.

Clinical studies have documented the benefits of *L. reuteri* and *L. rhamnosus* in infants and young children. These *Lactobacillus* strains are naturally found in breast milk and passed from a nursing mother to her child. GOS (Galactooligosaccharides) and FOS (Fructooligosaccharides) are similar to the oligosaccharides found in human breast milk and help baby maintain intestinal bacterial balance. The ratio of 90% GOS to 10% FOS mimics the oligosaccharide ratio in human breast milk. Vitamin D is essential to proper immune function. These three factors (probiotic, prebiotic, vitamin D) have a synergistic effect and reinforce the beneficial effects of breast milk.†
