

Jigsaw Adrenal Cocktail™ combines 400mg of Wholefood Vitamin C, Potassium Bicarbonate, and Redmond's Real Salt® in a unique formulation designed to support healthy adrenal gland function.*

Vitamin C plays a critical role in adrenal function, including their ability to produce numerous hormones. In fact, the highest concentration of Vitamin C in your body is stored by your adrenal glands.*

Additionally, sodium and potassium do a delicate dance in your adrenals and are both vital minerals for normal adrenal function.*

Finally, stressed adrenals deplete your body's supply of magnesium. So complimenting Jigsaw Magnesium supplements with Jigsaw Adrenal Cocktail™ will help your body use magnesium more effectively.*
