

Recommended Use: As a dietary supplement, three (3) capsules daily with meals, or higher intake as directed by a healthcare practitioner. For best results, six (6) may be taken daily for the first month or until the desired effect is achieved.

Ultra **NeuroRecovery™** nutritionally supports nerve tissue renewal, peripheral nerves and the central nervous system. Sources of damage to nerve cells are ubiquitous in modern society. Cumulative research findings suggest possible causes are endogenous free radical production in the absence of adequate antioxidant defenses caused by drugs of lifestyle like alcohol (which can devastate the brain), cigarette smoke, and cocaine, many pharmaceuticals, heavy metals, organochlorines and other classes of pollutant chemicals and emotional stress.

Not to be used by pregnant or nursing mothers unless directed by a physician. Keep this and all dietary supplements out of the reach of children. Store in cool dry place with cap tightly sealed. Strict quality control is maintained during each step of formulation.

WE USE USP/NF MATERIALS WHERE AVAILABLE.
