

Historical use of Maca root by humans goes back thousands of years to the Andean highlands, where ancient Incans thrived on its vitamins, minerals, amino acids and fiber. It grows at altitudes above 10,000 feet where little else survives.

Maca root has been used as a stress-fighting adaptogen to increase stamina, boost libido and combat fatigue.[†] More recent scientific data suggest that "gelatinized" Maca may help to support healthy sexual activity and fertility for men.[†] Gelatinization is an extrusion process that removes starch from Maca thus concentrating the active ingredients. Most studies indicate a serving should provide a minimum of 3,000 – 3,500 mg to support Maca's benefits.[†] A teaspoon of Nature's Lab 100% pure gelatinized Maca provides 5,000 mg of Maca.

Easy to use: A versatile addition to many snacks and meals! Maca can be added to smoothies and juices as well as soups, energy bars, oatmeal, baked goods and even cereal!

Nature's Lab Maca Root Powder is gelatinized, certified organic, non-GMO, gluten-free and vegan-friendly. Try Maca today and experience the full benefits of this Peruvian wonder.
