

Hyaluronic Acid functions as a "space filler," providing moisture-filled cushioning between cells, which is vital in the production and maintenance of collagen and cartilage.[†]

MSM (methylsulfonylmethane) is an organic source of sulfur, a mineral necessary for the production of collagen, the main structural component of cartilage and connective tissue.[†]

BioCell Collagen™ is a multi-patented, scientifically-substantiated ingredient that promotes active joints, youthful looking skin, and healthy connective tissues.[†]
