

Directions: Take one capsule before each meal. For maintenance, take one capsule twice daily or as directed by your healthcare practitioner.

Gluten Protect* is a powerful formula uniquely designed with proprietary blends of enzymes, prebiotics and probiotics to break down gluten proteins by targeting both internal and external peptide bonds.* Gluten Protect* goes beyond the traditional DPPIV enzyme, offering superior degradation of gluten proteins by breaking down unhydrolyzed gluten peptides.* Additionally, the highly specialized prebiotic, PreForPro® is unique in supporting the proliferation of beneficial bacteria in both the small and large intestines.* This plays a critical role in breaking down gluten and other proteins to promote a healthy intestinal tract.*
