

**Directions:** Mix one scoop (10 grams) in unchilled water or other beverage once daily or as directed by your healthcare practitioner.

**Immune IgG Support\*** is a pure bovine colostrum and is collected within the first 16 hours after birthing. It is a natural whole food that provides a rich source of IgG and PRPs (Proline-Rich Polypeptides).\* It also supplies protein, immune factors, growth factors, vitamins and minerals to ensure health and vitality naturally.\* Numerous scientific studies have shown that colostrum supports the human immune and cytokine systems.\* Bovine colostrum is actually 40 times richer in immune factors than human colostrum and is biologically transferable to humans.\*

PRPs are information-carrying proteins (peptides) with amazing adaptability. They support the body's balanced production of cytokines by sending signals via specific cell receptor sites.\* PRPs also support the thymus gland, which is known as the body's central command for the immune system.\*

Many colostrum products are produced in a way that they lose these very important PRPs. This formula is low heat processed for maximum biological activity and is hormone, antibiotic and rBST free.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

**Caution:** Do not use if you are pregnant or if you have received an organ transplant. Keep out of reach of children.

**Storage:** Keep tightly closed in a cool, dry place.

**Contents sold by weight, not volume.** Some settling may occur during shipping and handling. The amount of product contained in 1 scoop may be above or below 10 grams due to variations in handling and product density.

**Does not contain artificial colors, sweeteners and preservatives.**

**This Formula Meets or Exceeds cGMP Quality Standards.**
