

Since 1972

Cranberry has been traditionally used for centuries to support the urinary system. Some studies reveal that compounds in cranberry juice may support the body's healthy action against bacteria in the urinary tract. Buchu Leaf, a shrub native to South Africa, is part of this unique formula because of its historical reference as "a woman's best friend."*

RECOMMENDATION

Take one or two capsules with a meal three times daily. Use every day to help maintain a healthy urinary tract.*
