Calcium Aspartate Anhydrous (CaAA) is a new generation calcium compound that has achieved the highest rate of absorption and is guaranteed to be bioavailable for optimal bone and joint metabolism.

CaAA does NOT require participation of either Vitamin D or magnesium for better calcium absorption.

This product dissolves instantly and completely in water, soda, soup, cold or hot, and is perfectly safe for use with any food preparations.

*These statements have not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure or prevent any diseases.
