WARNING: Not intended for use by pregnant or nursing women. Avoid this product if you are allergic to aspirin, if you have liver or kidney disease, or high blood pressure. If you are taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. This product contains caffeine. Avoid additional consumption of caffeine, which may intensify adverse effects. Not intended for use by persons under the age of 18.

Keep out of reach of children. Store in a cool, dry place. Do not use if seal under cap is broken or missing.

NOTICE: Use of this product may cause skin flushing, burning, itching, or rash. Do not take on an empty stomach.

PRECISION ENGINEERED® FIREBALL LIQUI-FUSION

Designed with the purpose of creating a thermogenic, metabolic stimulator that's as strong as they come,* Fireball Liqui-Fusion is specifically designed to be used with your two largest meals of the day to support the **metabolic effects** of food consumption.*

Fireball Liqui-Fusion first stimulates **epinephrine release** in the bloodstream, which is one of the keys to unlocking the cell's ability to increase thermogenesis.* The active ingredients in Fireball Liqui-Fusion then work at the cellular level to **interact with enzymes** that decrease cell activity, to allow thermogenesis to continue at an elevated rate.* All this adds up to the strongest metabolic support available at an affordable price.*
