CLA 1250

Conjugated linoleic acid (CLA) is a unique fatty acid that has become a popular weight management supplement because of its potential ability to reduce body fat. CLA is typically found in beef and dairy. However, changes in farming and food processing have led to a significant reduction in the amount of CLA the average person consumes. NatureWise CLA 1250 is derived from non-GMO safflower oil and standardized to a minimum of 80% potency. NatureWise CLA 1250, along with a balanced diet and regular exercise, is a great way to support your overall weight management plan.*

**Live
Healthy.
Live
Happy.**

At NatureWise we believe that when you increase health & happiness in the world, it benefits everyone. From our products and customer support to the way we give back, it's all part of our mission to help people live healthier, happier lives.

GOOD FOR PEOPLE

Our products don't just benefit our customers. Every NatureWise purchase you make generates a 1-for-1 donation of life-changing nutrients to a child or mother in need for an entire year. Scan the code below to find out how you can double the donation — at no cost! Together we're making a world of difference.

We care about our planet's health, too. That's why we source our ingredients responsibly and package our products using only recycled materials and renewable energy. We are also a leading supporter of PINA, the Permaculture Institute of North America.

GOOD FOR THE EARTH

WE ARE 100% REAL
