

Maqui Max™ is a synergistic blend of some of nature's most powerful, antioxidant rich superfruit and berry juices.

The Maqui berries grow wild in Argentina and Chile in the area known as the Patagonia region of South America. Maqui are dark purple berries that have long been part of the culture of the ancient Mapuche people who believe Maqui is rich with medicinal properties. The Maqui berry is considered to be one of the richest antioxidant superfruits. Maqui-Max™ is rich in naturally occurring Vitamin C, essential fatty acids (EFA's), minerals, fiber, phytosterols, and potent antioxidants like – polyphenols, anthocyanins, rutin, catechins, ellagic acid, and amino acids. Our synergistic blend of Maqui, Acai, Pomegranate, Mangosteen, Camu Camu and Yumberry, when combined, exceeds the antioxidant content of red wine grapes – making it an antioxidant power-house!

Health Through Nature

Always consult a healthcare professional before taking
any nutritional supplement.

Do not use if inner seal is missing or damaged.
