Directions: We recommend starting with half a tablet to judge the strength of this product. As a dietary supplement take one tablet per serving after that time. Read warnings and only use as directed.

Although uncommon, side effects such as dry eyes, skin irritation, upset stomach, hair loss, joint pain, headache, and vertigo have been reported and are more likely to occur when taking more than 1 tablet a day. For this reason we now recommend only 1 tablet is taken unless you have doctor approval to increase your dose. If you get any side effects stop taking the product. Allergic reactions to sulfur (NAC) and other ingredients have occurred; read all ingredients before ingesting. Takes up to one bottle for results and skin may worsen before improving. Slight sulfur smell is normal and pill appearance can change at times as it is made from natural ingredients. **Email info@addrena.com for any issues.**

Warnings: Do not use if pregnant or nursing. Consult a health care professional prior to consumption if you have any pre-existing medical conditions or any prescription medication. Improper use of this product will not improve results and is potentially hazardous to a person's health. Dry skin is a commonly reported side effect; in rare cases dry eyes have been reported. If irritation of eyes occurs discontinue use of the product. If you develop dry skin reduce or stop the product. Consult a physician if either of these symptoms persist. Use only as directed.

KEEP OUT OF REACH OF CHILDREN. • Store in a cool, dry place.
