Supporting kids' natural defense systems is important to promoting their overall health as well as helping to alleviate occasional digestive distress. Culturelle® Kids Chewables support a child's health by fostering the proper balance between good bacteria and the non-beneficial bacteria that resides in the gastrointestinal tract.*

Culturelle® Kids Chewables contains Lactobacillus GG, the most clinically studied probiotic strain†. It is demonstrated to survive harsh stomach acids to get where it's needed most in the intestines and is recognized as safe for regular use.* Research has shown that Lactobacillus GG alleviates occasional digestive distress while supporting a child's natural defenses.*

Suggested Use:

For children 3 years and above:

Take one (1) tablet daily to support digestive and immune health. To alleviate occasional digestive distress, take two (2) tablets per day. If taking two tablets, take one in the morning and one in the evening. If conditions persist, consult your physician. Culturelle can be taken with or without food at any time of day.

For children over 100 lbs:

Take Culturelle Digestive Health Probiotic capsules as directed on package.

THIS PRODUCT IS INTENDED FOR USE UNDER ADULT SUPERVISION ONLY. KEEP OUT OF REACH OF CHILDREN. Not intended for children under 3 years of age due to risk of choking. This product should not be used by those with immune problems unless directed by a physician.
