QUALITY TESTED FOR PURITY • MOLECULARLY DISTILLED FISH OIL

**DIRECTIONS:** Take one tablespoon 1-2 times daily or as directed by a physician or health care professional. Shake well before using. Store tightly closed in a cool, dry place.

Twinlab's Emulsified Norwegian Cod Liver Oil was created for people who have difficulty with digesting oil. This unique formula supplies the essential fatty acids EPA and DHA, which support both cardiovascular and mood health. \* Clinical studies have shown that a diet that has at least 400 mg of Omega-3 fatty acids (300 mg of which are EPA and DHA) nutritionally supports cardiovascular health. \*

Our product is produced in a pharmaceutical-grade facility and is emulsified with natural soy lecithin and apple pectin making the EPA and DHA more readily available to the digestive system for better absorption, assimilation and utilization. For overall health and wellness, make Twinlab's orange-flavored Emulsified Norwegian Cod Liver Oil a part of your daily health regimen. MOLECULARLY DISTILLED FOR PURITY.

\* Requires 2 servings.

**WARNING:** If you are pregnant or nursing, anticipate surgery, have coagulopathy or any other medical condition, are taking anticoagulants or any other medication, consult a health care professional before use. **KEEP OUT OF REACH OF CHILDREN.**

Best if used by date shown on bottle.
