

Directions: As a dietary supplement, take 2 pills either at once or separated throughout the day. Some people may notice better appetite suppression when taking two at once as opposed to spaced out throughout the day. Metabolism boost may be stronger in some people causing less appetite suppression, but still results in weight loss. This is a safe fat loss pill that is not a quick fix; it may take months to see results. Contains ingredients that have been shown to be well tolerated.**

Please email info@addrena.com for any issues.

Warnings: Not intended for persons under the age of 18. Do not use if pregnant or nursing. Consult a health care professional prior to consumption if you have any pre-existing medical conditions or any prescription medication. Improper use of this product will not improve results and is potentially hazardous to a person's health. Use only as directed.

KEEP OUT OF REACH OF CHILDREN.

Store in a cool, dry place.
