

RoxyLean™

The Healthy Supportive, Metabolic,
Weight Management Agent!*

RoxyLean™ is based on the most popular weight loss supplement ever formulated.* It is extremely strong and not for everyone. It is comprised of the exact ratio of energy-driven ingredients, performance based components, and circulatory catalysts that make it unlike any other weight loss product available in stores today.*

RoxyLean™ is THE WEIGHT MANAGEMENT, ENERGY ENHANCING FORMULA.* So FAST, so LEAN, and so RIPPED.* This is the product that delivers where all others fall short.*

When taken properly, research shows that the component agents in RoxyLean™ may have a remarkable and potentiating effect on weight management and lean muscle mass may occur.*

In all the years that companies have struggled to formulate effective versions of weight loss products, there has never been another company as progressive as BPI Sports in helping reshape the category of weight loss supplements.* Never before has there been a product as targeted as RoxyLean™ – based on laboratory and scientific research and development...*

UNTIL NOW...

Rev. 01-001-RLND11 09/11

Please read entire label before use.

Suggested Use: Take one (1) capsule daily, in the morning on an empty stomach before food. Due to the extreme strength of this product Do Not Exceed more than one (1) capsule per day.

Warnings: Not intended for use by persons under age 18. Do not exceed recommended dose. Do not take for more than 8 consecutive weeks. This product should not be taken by pregnant or lactating women. Get the consent of a licensed physician before using this product, especially if you are taking medication, have a medical condition, or thinking about becoming pregnant. **Keep this product and all supplements out of the reach of children.**

Caffeine warning: The recommended serving of this product contains approximately as much caffeine as three cups of coffee. Do not consume caffeine or synephrine from other sources, including but not limited to coffee, tea, soda and other dietary supplements or medications containing phenylphrine, ephedrine, pseudoephedrine, caffeine or other stimulants. Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heartbeat. Discontinue use if you experience dizziness, severe headache, rapid heartbeat or shortness of breath.
