Dietary Supplement Digestive Support*

Helps Promote a Healthy Digestive System*

- 10 Billion CFU† Per Serving
- Promotes Well-Being*
- One Per Day

Friendly bacteria naturally exist in our bodies. Maintaining optimal levels of good bacteria promotes a general feeling of well-being. When these levels are reduced our immune system and digestive functions may decline*. Lactobacillus acidophilus, a friendly bacteria, is naturally found in the intestines. It supports a healthy environment in the intestines, making it difficult for unfriendly bacteria to survive*. If you plan to travel, are taking antibiotics, need to maintain healthy gut organisms, or are lactose intolerant, taking a Probiotic supplement daily may help promote a general feeling or well-being*. For Lactobacillus to have a positive effect, the bacteria must survive the harsh environment of our stomachs. Lactobacillus acidophilus, found in this supplement, supports a healthy intestinal system*. Adults taking a single dose regularly for just two weeks reported a feeling of general good health*.

No preservatives added, trans fat, gluten, artificial color, artificial flavor.

Take this product if you: Travel, need to maintain healthy gut organisms*, or are lactose intolerant.

Laboratory tested to release nutrient within 45 minutes.
