

Since 1972

### Immune System Support\*

Beta-glucans and arabinogalactan are polysaccharides. They are complemented by reishi and maitake mushrooms that are known to be rich in long-chain polysaccharides. Long-chain polysaccharides stimulate immune cells including macrophages, T-cells and natural killer cells. This unique blend helps to maintain healthy defense reactions.\*

#### RECOMMENDATION

**For maintenance:** Take one capsule between meals two or three times daily. **For periods of immune system stress:** Take one capsule 6-10 times daily.
