Warnings

Pregnant or lactating women, those with diabetes, hypoglycemics, and people with known medical conditions and/or taking drugs should consult with a licensed physician and/or pharmacist prior to taking dietary supplements. **Keep out of reach of children.**

VitaCost Synergy Triple Strength Glucosamine & Chondroitin 1500 mg/1200 mg per serving Description

*A combination formula providing critical nutrients to stimulate cells to help build joint cartilage.**

What is Triple Strength Glucosamine Chondroitin?

Glucosamine Chondroitin is a combination formula that contains building block nutrients for promoting healthy joint tissues.* Each 3-capsule serving includes the following:

Glucosamine. Glucosamine is a naturally occurring chemical found throughout the human body, including in the fluids surrounding joints. This formula contains 1,500 mg of glucosamine sulfate, the form of glucosamine used most often in research.

Chondroitin. Chondroitin is another naturally occurring chemical, found in cartilage around joints in the body. Included are 1,200 mg of chondroitin sulfate, the most widely available and commonly used form of this nutrient.

Triple strength formula

Contains: Crustacean Shellfish (shrimp, crab, lobster).
