

Directions: Take at least one tsp. daily with or without meals. Add to smoothies, juice, or mix in raw honey. Shake well before using.

Hempanol Brain Detox is potent, because it contains a complex of raw, organic hemp extract plus extracts of raw, wild crowberries and blackberries. Because the extracts are raw the enzymes and nutrients are completely intact. Raw, wild crowberry has long been known to support a healthy whole body and brain and nervous system response, being used traditionally for a wide range of conditions. The same is true of hemp extract, which acts to cleanse the body's neurons. Together, the wild berries extracts plus hemp are a powerful detox system for the entire brain and nervous system. Our crowberries are picked wild near the Arctic Circle. For detox nothing could be more potent than that.
