

Suggested Usage: 1-2 capsules per day or as directed by a health care professional.

Curcumin is a polyphenol that is commonly used for many health benefits. However, the absorption efficacy of curcumin is too low to exhibit beneficial effects. Theracurmin-Pro 300 is an enhanced form of curcumin that increases its absorption over 30 times compared to regular curcumin. It achieves this superior absorption through a surface controlled particle dispersion process that suspends the curcumin in a colloidal form. Provides antioxidant support for the maintenance of good health. Through its antioxidant activity, curcumin also supports healthy heart and brain function.*

Contains no artificial preservatives, color or sweeteners; no dairy, gluten, soy, wheat or yeast. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
