

Intestinal and Digestive System Support*

The body's processes result in waste products that need to be removed from the body. Cleansing and detoxification of the body help promote good health and general well-being. Herbs and nutritional supplements can be used to help support the body systems. It has a pleasing raspberry flavor and is easier for some to swallow than tablets, capsules, and thick fiber drinks.*

RECOMMENDATION

Take one ounce (30 ml) daily, as part of your personal cleansing program.
