

WHAT AM I?

I'm a vegan probiotic blend designed for women, with probiotic strains studied for their ability to support vaginal health.[†]

The lineup includes *L. rhamnosus* GG and *L. crispatus* as well as an organic prebiotic (Jerusalem Artichoke Inulin) to help fuel these probiotics.

HOW CAN I HELP?

My job is to promote optimal vaginal health while supporting a balanced flora and microbiome.[†] A healthy balance of probiotics can offer protection against an overgrowth of opportunistic pathogens (like candida).[†] My probiotics can improve the presence of Lactobacilli, a bacteria that usually dominates the vaginal microbiota in its normal healthy state (the right kind of lady bugs)![†]
