

Doctor's Best High Absorption Joint Support contains NEM®, Curcumin C3 Complex® and BioPerine®. NEM® is a patented egg membrane composed of naturally occurring glycosaminoglycans, the same key components found in healthy joint cartilage such as chondroitin sulfate, collagen and hyaluronic acid. Curcumin C3 Complex® is a standardized extract from the turmeric (*Curcuma longa*) root containing active curcuminoids, demethoxycurcumin (DMC), and bisdemethoxycurcumin (BDMC), and BioPerine® is an extract of black pepper containing piperine that is found to improve absorption of a variety of foods and dietary supplements. This unique formula helps support against cartilage degradation associated with normal wear and tear.* It also supports joint mobility, flexibility and overall joint health.*

Helps support joint mobility and flexibility*

Helps support against cartilage degradation associated with normal wear and tear*

Helps support joint health*
