

Zinc Tally™ may provide a simple method for evaluating zinc status. After placing 10 mL of Zinc Tally in the mouth, a lack of taste or a delayed taste perception suggests a possible zinc insufficiency.

An immediate taste perception suggests zinc status may be adequate. Zinc Tally may also be taken as a supplement.

Directions: Hold 10 mL (equivalent to two teaspoons) in the mouth for at least 10 seconds. Liquid can be swallowed after tasting.

This product is non-GMO, gluten-free, and vegetarian.

Caution: Keep out of the reach of children.

Storage: Refrigerate after opening.
